PAO (ORs) ARC Shillong.

Subject: Regarding updates in Tulip OAS for generation of CMP batches where NCS response code is 533.

Tulip ear version no. - 8.0.64 dated 26.03.2026 has been updated in the local Tulip OAS incorporating changes in the following modules: -

Sr.No.	Module	Description
1.	CMP file Generation for 533 error code	PM batches where NCS response is 533 and PM has actually been compiled to NCS, can now be updated through 'View PM Upload' activity available under search menu . This option is available to GO level only . Before updating the status, it should be ensured that the PMs have been compiled in NCS.

In view of the above, it is hereby emphasized that the responsibility of verifying the compilation status of the PMs on NCS, before updating the status of the batches with NCS response code 533 shall rest with the concerned GO. Any updation without proper verification may lead to non-compilation of the PMs on NCS and also may result in overbooking of the expenditure. In such cases, the IT&S section shall not be responsible for compilation of the PMs on NCS after the payment is processed by the D-section.

(Abhijit Chakraborty), IDAS
Asst. Controller
